ADVANTAGE STOCK
GLOBAL EQUITY FUND

Marketing Information, Status: 11/30/2018

Fund Characteristics

The Advantage Stock is a global equity fund which invests in Large-cap Companies with leadership in their markets. The most important criteria for investing is the fundamental outlook of the companies.

Characteristically the fund takes advantage of high volatility in the market. The annual premium earned by writing Call-Options or buying Discount-Certificates is in the low double-digits.

The Advantage Stock, with its defensive investment style, is an appropriate investment vehicle for investors who want to create a permanently higher return with a much lower risk premium.

Fund Manager's Comment

Recent data releases appear to confirm that the US economy is expanding with evidence of a clear acceleration in growth. Consumer spending shrank rapidly and we are becoming more concerned about the outlook for the US corporate sector.

Capital spending continues to increase, but at a slower pace. We are seeing a rise in stock of inventory due to the slowdown in demand.

Europe appears to be confronted with a growth rate not much lower than market participants had anticipated.
